

EDS-gränssnittet i VTT

27.4.2022, ESSUG:s användardagar 2022

Anita Laamanen
Team leader, eLibrary and Tools

Motive for change

Regulation

- As a fully government-owned company, VTT must follow EU and Finnish laws on procurement and competitive tendering

Price

- Method: Market survey
- As a result of quotes from potential providers, there was no need for tendering

Quality

- Method: Test period & Literature survey
- Quality criteria didn't override the importance of price
- There were no major differences between functionalities and features

Objectives

- Shared responsibility in admin and guidance

Some spots during process

Reflection of implementation

Carefully built and customized in-house brand

- *eKnowledge Search* remained since 2009

The integration of the two most crucial systems

1. VTT Pure. Integration of the Current Research Information System, VTT Pure went fluently.
2. Ebook Central collections. DDA, consortia, and permanently purchased collections needed extra care. It will be a continuous process with monthly updates: added & deleted.

Cases in EBSCO Connect in 2022

- 11 cases are all now solved and closed.

Enhancement requests

- Six open requests

No print collections or library catalogs at all. All collections are e-only.

No LibGuides, Libanswers, chat options

What new features we got?

Concept Map

Supplemental sources & Send search to ...

Remote access

Personalization options: Projects, Saved items, Saved searches

What features we miss?

Open Enhancement Requests (ER)

To hide "Holds & checkouts"

ER #1470288

Icons for Online Full Text and Open Access

ER #1642748

Sign in link for IP authenticated users

ER #1015969

Change the color and contrast of buttons under the search field

ER #1581999

Ability to hide citation formats (remove ABNT from the "cite" feature)

ER #1630035

Request to have Times Cited in EDS

ER #585464

Next steps

User experience survey

- So far: No news is good news.

Usage statistics show that we need to communicate internally much more

- We have managed to move only half of the usage to EDS. Summon still working.

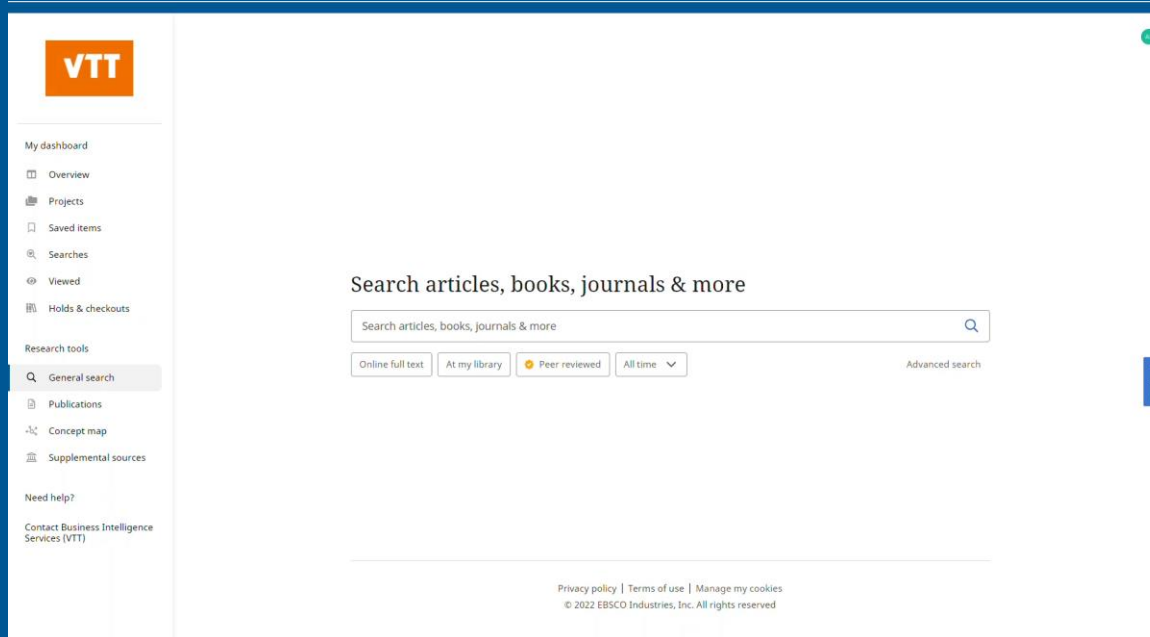

More end-user training in-house by ourselves

- There has been three training sessions

Admin training by EBSCO and self-learning within the EBSCO Connect platform

- Three hours of training included to the implementation process

Time for the demo – duration 5 min 30 sec

The screenshot displays the VTT search interface. On the left, there is a navigation sidebar with the VTT logo at the top. Below the logo, the sidebar is organized into sections: 'My dashboard' with links for Overview, Projects, Saved items, Searches, Viewed, and Holds & checkouts; 'Research tools' with links for General search (highlighted), Publications, Concept map, and Supplemental sources; and 'Need help?' with a link to Contact Business Intelligence Services (VTT). The main content area features a search bar with the placeholder text 'Search articles, books, journals & more'. Below the search bar are filter buttons for 'Online full text', 'At my library', 'Peer reviewed', and 'All time'. An 'Advanced search' link is located to the right of the filters. A vertical 'Feedback' button is positioned on the right side of the main content area. At the bottom of the page, there are links for 'Privacy policy', 'Terms of use', and 'Manage my cookies', along with the copyright notice '© 2022 EBSCO Industries, Inc. All rights reserved'.
