Nya EBSCOhost

The screenshot displays the EBSCOhost search interface. On the left is a sidebar with navigation links: My dashboard (Overview, Projects, Saved, Searches, Viewed, Holds & checkouts), Research tools (General search, Publications), and the Stanford logo. The main search area shows a search for 'Kenya' across all databases, resulting in 10,342 results. Below the search bar are filter buttons: 'All filters (1)' (highlighted with a red box), 'Online full text', 'Peer reviewed', and 'All time'. A red arrow points from the 'All filters (1)' button to the 'Apply filters' button in the filter panel on the right. The filter panel shows the following active filters: Online full text (checked), Peer reviewed (unchecked), Date Range (All time selected), Content provider, and Publication. The 'Apply filters' button is highlighted in blue. The search results list two articles, both mentioning 'Kenya' in the title. The first article is 'Factors influencing access of HIV and sexual and reproductive health services among adolescent key populations in Kenya' by Robert, Kimathi; Maryline, Mireku; Jordan, Kyongo; Lina, Digolo; Helgar, Musyoki; Annrita, Ikahu; +2 more. The second article is 'No longer at ease: How digital organizational followers in Kenya are challenged by contemporary leadership'.

GOBI E-books – ny databas i EDS

GOBI E-books – ny databas i EDS

Den 10 april blev alla e-boksposter från EBSCO:s e-boksplattform GOBI tillgängliga i EDS via den nya databasen **GOBI E-books** (edsgob).

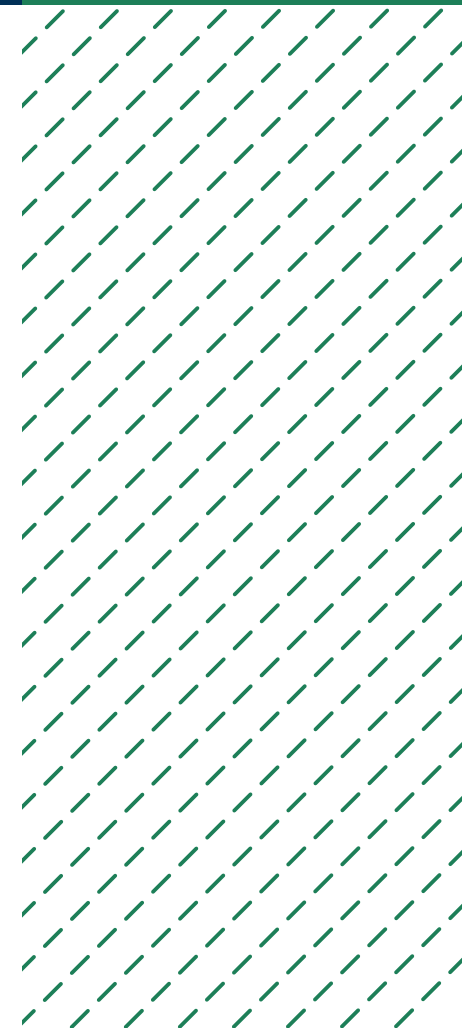

GOBI E-books – ny databas i EDS

*Kommer **alla e-böcker som jag köper via GOBI** att visas i databasen GOBI E-books (edsgob) i EDS?*

Svar: Ja, alla 30+ leverantörers e-boksposter visas. Det är över 3 miljoner e-boksposter från mer än 30 olika förlag och aggregatorplattformar.

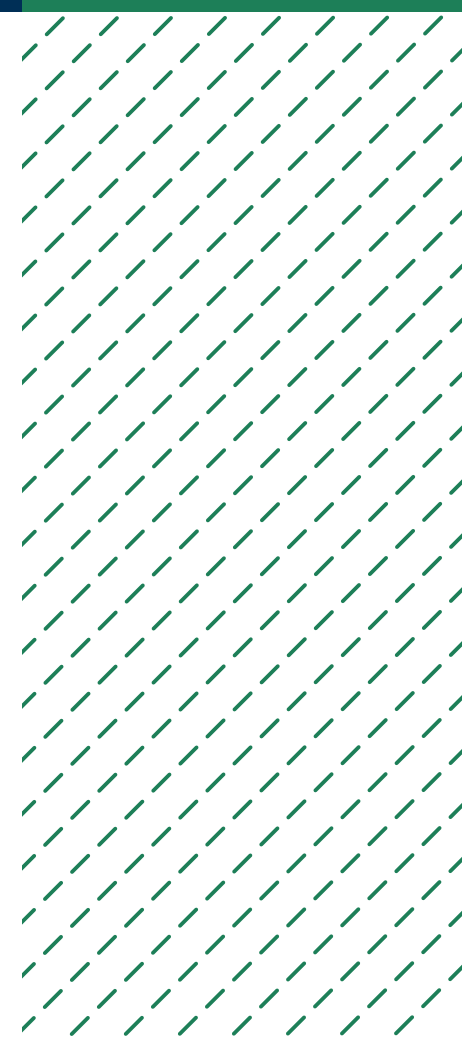

Alla kunder, inte bara GOBI-kunder, kan använda denna nya databas i EDS.

GOBI E-books – ny databas i EDS

För de kunder som använder **GOBI Auto-Population** kommer posterna från databasen GOBI E-books automatiskt att visas i EDS med en Full Text Finder-länk utan att man behöver aktivera databasen själv.

GOBI Auto-Population är gratis för alla GOBI-kunder, kontakta vår support.

Citation

Scheyett, A., Bayakly, R., & Whitaker, M. (2019). Characteristics and contextual stressors in farmer and agricultural worker suicides in Georgia from 2008–2015. *Journal of Rural Mental Health*, 43(2-3), 61–72. <https://doi.org/10.1037/rmh0000114>

Abstract

Farmers and agricultural workers are at elevated risk of suicide. The majority of farmer suicide research has been completed in Australia; less is known about farmer suicide in the United States and in specific regions of the country. This study addressed this knowledge gap by examining suicide data for farmers and agricultural workers from the Georgia Violent Death Reporting System, 2008–2015. We found that farmers who died by suicide were predominantly male, White, non-Hispanic, and older, with slightly fewer than half being married, and half having a high school education or less. The most common means of death was gunshot wound (78%), followed by hanging (16%). The contextual factors most frequently reported to be associated with suicide were relationship conflict or loss (25%) and health problems (25%), including chronic pain and decreased function. Financial problems (12%) and substance use (11%) also were associated with suicides. In 21% of cases, the individual was reported to have made prior suicidal threats; however, family members were reported to often discount these indicators. These findings suggest that suicide prevention programs might include suicide education for community members in rural areas. Rural health care providers could be trained in suicide risk detection and referral options for farmers with illness, pain, or loss of functioning, and services
