Alphabetical list of people interviewed by the Polish Research Institute in Lund

The witness testimonies are numbered 1-514. Sixteen testimonies were considered to contain particularly sensitive information by the working group and were classified until 2004; those are numbered T1-T16. Some testimonies were never completed and given a number. Nine numbered testimonies have been missing since the 1940s and were never a part of the collection at Lund University Library. Other testimonies are due to historical reasons at the Nicolaus Copernicus University Library in Torun, Poland. The completed testimonies at Lund University Library have been digitized. You can access the digitized documents by clicking the name in the list. Note that diacritics are not used.
